PROFILE

A junior full-stack developer with 3+ years of experience working as a front-end Developer with demonstrated ability to collaborate with Junior and senior developers. I enjoy working in a cross-functional team, writing clean and reusable code, and ensuring workloads are efficiently redirected to bottlenecks. I am enthusiastic about software development and adapt quickly to new technologies, constantly looking to educate myself and acquire new skills. I always want to be involved in the entire software lifecycle, from planning to implementation to live deployment.

PROFESSIONAL EXPERIENCE

Front-End Developer   11/2019 – 02/2022
Stallion Tech (Hybrid)   Uyo, Nigeria
- Maintained 15+ web pages under the direction of the UX manager and development team.
- Created and designed modules using semantic HTML, CSS, JavaScript, and React to create responsive web pages and web applications that work across desktops, mobile devices, and 10+ other devices.
- Tested website performance and experience using Google Lighthouse.
- Actively participated in code reviews.
- Worked with other developers in an agile working environment.
- Performed unit testing and integration testing and deployed them for use.

Front-End Developer Intern   01/2019 – 08/2019
Decagon Institute (on-site)   Lagos, Nigeria
- Assisted the development team in maintaining 7 websites.
- Implemented front-end tools and CSS preprocessors to meet project requirements for the creation of 11 new web pages.
- Conducted research and helped in the business application areas with attempts to scope out new business, which led to the acquisition of 7 new clients, boosting profits by 10%.
- I collaborated with other interns and developers to create multiple web pages using HTML, CSS3, JavaScript, and Vue.js
- Used storybook for development, testing, and documentation of web pages and web applications.

EDUCATION

Masters engineering management   04/2022 – 06/2023
IU International University of Applied Sciences Berlin   Berlin, Germany
